- **Affiliate link** - An internet link that a partner can give to any person in order for him to click on it and register in the project. In this case, you don't need to specify the invitation code. Because it'll be automatically filled in the registration form after clicking on the affiliate link.

Rules

1. **Partner.** In order to become a partner, you need to be registered in a SuperCashBox. But it's not necessary to have active deposits? (но не обязательно иметь активные цели) and participate in mutual financing.
2. **Reward.** Partner bonuses are due to partners only for personal recommendations of the project, and not for "partnership" or assistance. The inviting partner is not obliged to help his invitees. For this purpose there are employees in the SuperCashBox who are fully engaged in supporting the members.
However, it's important to understand that personal communication with partners and assistance in their work will certainly lead you to results faster and increase the amount of partner rewards.
3. **Amount of partner bonuses.** The partner receives partner bonuses - a percentage of % of all deposits of his structure. The amount of the partner bonus (In %) is set depending on the level at which the members are located:
 - 1st level - 10%
 - 2nd level - 2%
 - 3rd level - 0,5%
 - 4th level - 0,3%
 - 5th level - 0,2%
 - 6th level - 0,1%
 - 7th level - 0,1%
 - 8th level - 0,1%
4. **Accrual of partner bonuses.** Partner bonuses are credited to the partner's balance as soon as his invitee has deposited funds. This happens at the moment when funds go on deposits from the invitee's balance. Not at the moment of balance replenishment.
It's also worth considering that the partner receives the Partner bonus as long as the member makes deposits. For example: if an invited member creates deposits for 20 weeks, then his inviter will receive bonuses for all 20 weeks.
5. **Accrual only from new money.** All affiliate bonuses are paid with new money. New money it's funds that the members brought to the balance in the first place or deposited on top of the amount that he previously received from the project and withdrew to his payment system. This is a standard rule, because the affiliate program was created with one purpose: - To stimulate the growth and expansion efforts. Any expansion is paid by partner bonuses, whether it's an increase in deposits from invitees or an increase in the number of invitees themselves. For a more detailed explanation of the "New money", read [this article](#).
6. **Payment of partner bonuses.** After the partner bonuses are credited to the balance in the personal account, the partner can manage them at his discretion: withdraw the earned

bonuses through payment systems or use them for his own deposits.

7. **The rule for determining the partner.** New members assigned to the partner whose last recommendation he registered or whose affiliate link was the last clicked.
 - If a potential member went to the site by using different partner links, then the partner will be the person which link was used for registration by a new member.
 - If a new member clicks on an affiliate link, then there's no field to enter or change the partner login during registration.
 - Thus, by clicking on the affiliate link once a potential member will be assigned to the partner. At the same time, if a potential member closes the site and visits it again after a while, the data about the partner will be saved. The storage period of partner data in cookies is 365 days.

8. **Partnerships.** The partner receives bonuses only for those members of his structure, who take a part in the system personally and not through intermediaries or representatives. For more information about the representation of **interests by third parties**, read the [Project Rules](#), paragraphs 2.5 and 2.6.

Otherwise, the Administration may unilaterally refuse you or your invitees in participation, without paying partner bonuses and/or break the partnership with your invitees.

9. **Changing partnerships.** Changing of a higher-level partner or switching to another structure is prohibited. Pay your invitee's attention to the field "Your partner" when registering. There should be your "Invitation Code" as an Inviter.

A change of partnership is possible ONLY in exceptional cases, which are described in the [article](#).

10. **Spam.** By using SPAM, you cause serious damage to the site and the project. Which leads to the blocking of the domain and the site as well. Also it harms the reputation of the project. You shouldn't use SPAM and other illegal methods to advertise your affiliate links. Otherwise the Administration reserves the right to unilaterally refuse your participation without paying partner bonuses.
